UVODNA REČ

Poštovane kolege i prijatelji,

Dobrodošli na 8. SERBIS, mesto na kome kliničari i biohemičari govore istim jezikom. Tokom godina smo se trudili da uspostavimo svoju individualnost, pažljivo birajući teme koje pokriva naš program. Povratne informacije koje dobijamo od naših predvača i učesnika govore nam da smo izabrali pravi put. I ove godine nastavljamo da kombinujemo naše obrazovne ciljeve sa posvećenošću podizanju svesti o tome kako efektivna saradnja kliničara i laboratorije može da doprinese poboljšanju ishoda zdravstvene zaštite.

Nadamo se da će 8. SERBIS svim učesnicima biti izuzetan i nezaboravan događaj. Hajde da se ponovo okupimo da se edukujemo, da se družimo i negujemo kolegijalnost! Podržimo jedni druge, jer samo zajedno možemo sve.

Direktori simpozijuma

Sanja Stanković

Milika Ašanin

Vladimir Jakovljević

WELCOME ADDRESS

Dear Colleagues and Friends,

Welcome to the 8th SERBIS, the place where clinicians and biochemists speak the same language. Over the years we have tried hard to establish our individuality, carefully selecting the topics covered by our programme.

The feedback that we are receiving from our speakers and participants tells us that we chose the right path. This year, we continue to combine our educational goals with a commitment to raise awareness of how effective collaboration between clinicians and laboratories can contribute to improving health care outcomes.

We hope that 8th SERBIS will represent for all participants an outstanding and memorable event. Let's meet for education, friendship and strengthen our bonds of collegiality! Let's support each other and together we can make a difference!

Sincerely yours,
Symposium directors
Sanja Stanković
Milika Ašanin
Vladimir Jakovljević

SERBIS 2023

8. SERBIS

Efektivna saradnja kliničara i laboratorija ključ poboljšanja ishoda zdravstvene zaštite

Effective clinician and laboratory collaboration as the key to improve healthcare outcomes

03.07.2023.-04.07.2023.

Hotel Crown Plaza, Beograd

03.07.2023

08:00-09:00

Registracija učesnika

Registration

Predsedavajući / Chairs:

Danijela Trifunović / Marija Polovina

09:00-09:25

Natriuretski peptidi i atrijalna fibrilacija u akutnom infarktu miokarda

Natriuretic peptides and atrial fibrillation in acute myocardial infarction

Milika Ašanin

9:25-09:45

Diferencijalno dijagnostički pristup pacijentu sa dispneom-značaj kliničke procene i laboratorijske dijagnostike

Differential diagnostic approach to patients with dyspnea - the importance of clinical assessment and laboratory diagnostics

Ana Ušćumlić

09:45-10:05

Uloga natriuretskih peptida u dijagnostici i proceni rizika u akutnoj srčanoj insuficijenciji

The role of natriuretic peptides in diagnosis and risk assessment in acute heart failure

Marija Polovina

10:05-10:25

Uloga natriuretskih peptida u stratifikaciji bolesnika sa aortnom stenozom lečenih TAVI procedurom

The role of natriuretic peptides in risk stratification of patients with aortic stenosis treated by TAVI

Dejan Milašinović

10:25-10:45

Hs Tn u proceni kardiovaskularnog rizika

Hs Tn in cardiovascular risk assessment

Lidija Savić

10:45-11:05

Značaj hs Tn u dijagnostici akutnog koronarnog sindroma bez perzistentne ST elevacije

Significance of hs Tn in diagnostics of acute coronary syndrome without persistent ST elevation

Aleksandra Milošević

11:05-11:25

Laboratorijske analize i imidžing tehnike su neraskidivi spoj u donošenju prave dijagnoze kod bolesnika sa akutnim bolom u grudima

Laboratory analyses and imaging techniques are an unbreakable link in making the right diagnosis of patients with acute chest pain

Gordana Krljanac

11:25-11:45

Klinička biohemija i kardiovaskularni imidžing u dijagnostičkoj slagalici i optimizaciji terapije: pobednički duo

Clinical biochemistry and cardiovascular imaging in the diagnostic puzzle and therapy optimization: a winning duo

Danijela Trifunović

11:45-12:10

Medicinski biohemičar kao klinički konsultant: da li se približavamo cilju?

Medical biochemist as a clinical consultant: are we approaching the goal?

Sanja Stanković

12:10-12:25

Diskusija / Discussion

Workshops

12:25-12:50

Roche

12:50:13:15

Biotec Medical / Snibe

13:15-13:30

Vicor

13:30-13:40

Magnapharmacia / Stago

13:40-14:10

Ručak / Lunch

Predsedavajući / Chairs:

Ratko Lasica / Nebojša Antonijević

14:10-14:30

Biomarkeri u plućnoj hipertenziji

Biomarkers in pulmonary hypertension

Ivanja Veljić

14:30-14:50

Stratifikacija rizika u emboliji pluća-poseban osvrt na značaj biomarkera

Risk stratification of pulmonary embolism: focus on biomarkers

Ratko Lasica

14:50-15:10

Značaj praćenja direktnih oralnih antikoagulantnih lekova

The importance of monitoring direct oral anticoagulant drugs

Nebojša Antonijević

15:10-15:30

Značaj određivanja adenozin deaminaze u kliničkoj praksi

Significance of adenosine deaminase determination in clinical practice

Arsen Ristić

15:30-15:40

Diskusija / Discussion

Predsedavajući / Chairs:

Aleksandra Sokić Milutinović / Tamara Milovanović

15:40-16:05

Laboratorijsko praćenje biološke terapije kod pacijenata sa inflamatornom bolešću creva

Laboratory monitoring of biologic therapy in patients with inflammatory bowel disease

Aleksandra Sokić Milutinović

16:05-16:25

Neinvazivna evaluacija bolesnika sa masnom bolešću jetre

Noninvasive assessment of patients with non-alcoholic fatty liver disease

Tamara Milovanović

16:25-16:45

Uloga fekalnog kalprotektina u dijagnostici i praćenju inflamatornih bolesti creva

The role of fecal calprotectin in diagnosis and monitoring of inflammatory bowel disease

Sanja Dragašević

16:45-17:05

Hepcidin iz ugla gastroenterologa

Hepcidin from a gastroenterologist's point of view

Milica Stojković Lalošević

17:05-17:25

Helicobacter pylori infekcija

Helicobacter pylori infection

Vladimir Milivojević

17:25-17:35

Diskusija / Discussion

17:35-19:45

**Okrugli sto: Unapređenje saradnje kliničara i laboratorija:
izazovi i perspektive**

Round table discussion: Improving clinician and laboratory collaboration:
challenges and perspectives

Moderator: Sanja Stanković

*Marijana Stanojević Pirković / Vladan Ćosić / Tatjana Cvetković / Radmila
Obrenović / Tatjana Vodnik / Olja Gabrić / Biljana Popović / Milika Ašanin /
Vladimir Jakovljević*

Predstavnici kompanija / Corporate representatives:

Roche, Biotek Medical, Abbott, Vicor, Teamedical

Predstavnici udruženja / asocijacija / Representatives of Societies / Associations

04.07.2023

Predsedavajući / Chairs:

Bojan Jovanović / Danijel Galun

08:30-08:50

Laboratorijski biomarkeri kao prediktori teškog holecistitisa

Laboratory biomarkers as predictors of severe cholecystic

Dušan Micić

08:50-09:10

Biohemijska dijagnostika u politraumi

Biochemical diagnostics in polytrauma

Daniel Mialjica

09:10-09:30

Akutni pankreatitis: klinička i laboratorijska perspektiva

Acute pancreatitis: a clinical and laboratory perspective

Pavle Gregorić

09:30-09:50

Hepatocelularni karcinom: biomarkeri i terapija

Hepatocellular carcinoma: biomarkers and therapy

Danijel Galun

09:50-10:10

Tromboelastografija i hemoragijski šok

Thromboelastography and hemorrhagic shock

Marija Milenković

10:10-10:30

Biomarkeri sepsa: iskustva iz Urgentnog centra

Sepsis biomarkers: Intensive Care Setting experience

Bojan Jovanović

10:30-10:50

Biomarkeri u dijagnostici invazivnih gljivnih infekcija

Biomarkers in the diagnosis of invasive fungal infections

Aleksandra Barać

10:50-11:00

Diskusija / Discussion

Predsedavajući / Chairs:

Ljiljana Mirković / Svetlana Vujović

11:00-11:25

Endokrinologija endometrijuma

Endocrinology of endometrium

Svetlana Vujović

11:25-11:45

Biomarkeri preeklampsije

Biomarkers of preeclampsia

Ljiljana Mirković

11:45-12:05

Biomarkeri osteoporoze

Biomarkers of osteoporosis

Predrag Ostojić

12:05-12:15
